

## *Freedom Area High School*

### *Guidance Department Mission Statement*

*The Freedom Area High School Guidance Department is dedicated to maximizing the strengths, skills, abilities and talents of all students so they may become self-confident, well-rounded, responsible and productive citizens. Freedom Area High School recognizes that ALL students have unique abilities, interests, talents, needs and potential to achieve their short and long term goals. As aligned with our High School Mission statement, we encourage students to be self-advocates where they have a sense of control and influence over their own learning and development. We believe students who are self-advocates may have a more enthusiastic attitude toward researching an enhanced understanding of their future. Additionally, our goal is to provide parents with resources and information to empower their child to make better decisions regarding their child's future.*
